

COA CÁDIZ

10th Edition of the Sánchez Esteve Award 2022-23

Granted by the Official College of Architects of Cádiz on June 5, 2024

Project: CASA PS50

Location: Atlanterra Urbanization, Tarifa

Awarded to: **María Langarita Sánchez** with Víctor Camilo Navarro Ríos

Jury's Evaluation:

The jury highlighted the strategy of hillside integration, which combines architecture and landscape design while maintaining a coherent alteration of the existing topography. The project successfully embeds the house into the terrain without attempting to fully blend in, while utilizing a horizontal structure that houses the program, creating a large protective shaded area. The design employs an innovative architectural language, with meticulous attention to materials and details.

10th Edition of the Torres Clavé Award 2022-23

Granted by the Official College of Architects of Cádiz on June 5, 2024

Project: HOUSING RENOVATION

Location: San Fernando

Awarded to: **Rocío Martínez-Fons Delgado** with Francisco Garrido Roca

Jury's Evaluation:

The jury praised the ambition to go beyond a conventional program by taking on a typological challenge that is both functionally and emotionally adapted to its users. The project achieves the most with minimal intervention, carefully embracing and incorporating pre-existing elements. It stands out for its simple yet surprising architectural composition, a flexible program, and a spacious design that enhances the living experience.
